Unlike other professionals, as lawyers we don't often take the time to step back, invest in our leadership abilities, and create strategies around what motivates our teams and how to best serve our clients.

Our faculty offer their cutting-edge research, perspectives, and frameworks for you to use in creating innovative solutions to your challenges. Whether uniting attorneys from diverse practice areas, building a spirit of teamwork, or aligning pricing and services with overall strategy, you will leave our program with specific, practical ideas to accelerate your professional impact. This program will ensure that you are prepared as you take on increasingly complex leadership roles.
